TEMP-DOR

PRODUCT OVERVIEW

Temp-Dor is a reusable solution, purpose-built to maintain building security and safety until a permanent door can be installed.

- **Adjustable Frame:** Fits openings from 875mm to 1095mm
- **Quick Installation:** Modular design allows for fast on-site assembly
- **Escape-Ready:** Includes astragal and accommodates a compliant escape sashlock (BS EN 179)
- **Bespoke Specification:**
Available upon request
- **Double Door Set:**
Available upon request
- **Non-Handed:** Can be configured for left-hand or right-hand installations
- **Durable Build:** Steel construction resists unauthorised access and weather exposure

The system covers a wider structural width range than most temporary products, making it a reliable alternative to makeshift solutions.

KEY BENEFITS

- **Revenue Opportunity:** Purchase once and generate ongoing income by renting to clients as a secure temporary door solution
- **Rapid Deployment:** Secure your premises quickly following damage or break-in
- **Enhanced Security:** Steel construction provides robust protection
- **Cost-Effective:** Reduces reliance on emergency guarding or temporary boarding
- **Versatile Fitment:** Compatible across a range of door openings and use cases
- **Peace of Mind:** Maintains building integrity and access control during the replacement process
- **Suitable Sectors:** Commercial, industrial and public sector premises
