

## UPGRADE YOUR FIRE EXIT

**Secure PAS 24  
Certification  
Without Stretching  
Your Budget**

Combine the assurance of a security door with the full functionality of a fire exit to provide complete peace of mind.

SECUR-DOR 2.1 from Robust UK delivers the best of both worlds: reliable emergency escape performance and PAS 24 certified security in one proven, third-party tested solution.

Designed to protect vulnerable exit points without compromising safety, SECUR-DOR 2.1 gives you complete peace of mind.

And with exclusive, cost-effective ARRONE panic hardware, achieving PAS 24 security could cost as little as £100 more per door leaf compared to a standard fire exit.

## Safe. Secure. Certified.

## PRODUCT OVERVIEW

**Secure. Compliant. Cost-effective.**

**SECUR-DOR 2.1** delivers a robust emergency exit solution that combines reliable performance with proven security; all at an exceptional price.

Developed in partnership with HOPPE (UK) and incorporating exclusive ARRONE panic hardware, SECUR-DOR 2.1 doorsets have been tested to PAS 24 (2022) standards for both single and double door configurations.

- Single doors feature a 2-point bolt system.
- Double doors combine a 1-point bolt on the active leaf with a 2-point bolt on the passive leaf.

Upgrading from a standard fire exit to a PAS 24 certified security doorset could cost as little as £100 more per leaf.

**The result:** a third-party tested, UK-manufactured solution that delivers peace of mind, compliance, and genuine value.

## APPLICATIONS

**Ideal for:**

- Warehousing
- Retail and hospitality
- Education
- Healthcare
- Public sector

## KEY BENEFITS

### Proven Performance

- PAS 24 (2022) certified doorsets provide a tested level of resistance against forced entry.
- Fully compliant with BS EN 1125 panic hardware requirements for emergency exits.
- Upgrades a traditionally vulnerable fire exit into a secure escape route.

### Flexible Design

- Available as single and double doorsets.
- Compatible with vision panels and louvres.
- Achieves a U-value of 1.5 W/(m<sup>2</sup>K).

### Exceptional Value

- PAS 24 (2022) certification available from as little as an additional £100 per leaf, subject to specification.
- Exclusive ARRONE panic hardware delivers proven security without premium pricing.
- Magnelis® construction provides unrivalled corrosion protection, supported with up to 10 years warranty.

“Fire exits should allow safe egress without permitting unauthorised entry.”  
**SECUR-DOR 2.1** achieves that.
